

mC80

from 70 mm

RAUSCH

Sliding System for Long Distances

The mC80 comes with an impressive standard push cable length of 130 m, enabling highly efficient manhole-to-manhole inspections. It provides exceptional reach and allows easy access to even the most challenging and hard-to-reach inspection points.

- Suitable for pipe diameters starting from 70 mm
- 55 mm axial camera with automatic image orientation
- 130 m flexible push cable
- Passes 90° bends from 100 mm pipe diameter
- Sunlight-readable 8" display
- Battery runtime of 2–3 hours per charge
