

minCord 5

from 15 mm

RAUSCH

Small, compact and can be used almost anywhere.

The minCord 5 enables a completely non-destructive inspection of pipes, cavities, weld seams, turbines, hollow parts, and cast supports. Expensive dismantling is no longer necessary. This way, you can discover surface damage, cracks, deposits, and wear and tear with the least effort.

- 13 axial camera
- 15 m flexible push cable
- 33 kHz / 512 Hz / 640 Hz locating sonde
- 90° bends from 25 mm
